Edgar VIENNET

edgar.viennet@student-cs.fr | (+33) 6 25 36 78 95 | Paris, France

I am a driven second-year AI, Data and Management student currently pursuing a dual degree at CentraleSupélec and ESSEC (France), with a strong foundation in research and problem-solving. Curious, ambitious, and adaptable, I am seeking a summer internship in the financial markets industry.

EDUCATION

CentraleSupélec & ESSEC Dual Degree | *Expected June 2029 Bachelor AIDAMS (Artificial Intelligence, Data Analytics and Management Sciences) | Paris, France*

- Intensive and multidisciplinary curriculum taught in English: mathematics, physics, computer science, AI, data analytics, geopolitics and marketing

École Jeannine Manuel Lille | *June 2025 Baccalauréat Français International (BFI) & High School Diploma | Lille (France)*

- Specialized in Mathematics, Physics/Chemistry, and Social Sciences and Economy (SES)
- Activities: American Section Boarding student; Rugby Team; Tutoring

ESADE, Summer School | *ESADE Business School | July 2024 | Barcelona, Spain*

- International Business Experience program on business, marketing and finance
- Created a business and had to generate a plan to make it thrive with what I had learned

WORK EXPERIENCE

Fixed Income Assistant Trader | *BRED, BPCE Group | June – August 2026 | Paris, France*

- Developed financial tools and a model to assist traders in their daily tasks
- Monitored financial markets, specifically government bond markets with Bloomberg and other tools

Sailing Assistant Instructor | *Summer Job | 2022-2023 | France*

- Assisted in teaching children, teenagers and adults various nautical disciplines while ensuring their safety

PROJECTS

Asset Swap Spread Fair Value Model | *Trading | 2026*

- Developed a model used to predict EU and US asset swap spreads market movements
- Using PCA, Linear Regression and a Z-score the model could detect mean reverting accurately

Wildfire Risk Prediction Model | *Academic | 2026*

- Research project crossing live and historical data pipelines to predict wildfires in France
